## WHAT OUR STUDENTS WANT TO TELL YOU

**We asked our students what advice they'd give to a new student. They said:**

*"It's not just about getting your degree or an education, it's learning as a person too. You get to meet other people and go through things together. You'll get a shoulder to cry on and then the next week you'll be laughing together. It's such a great learning curve."*

*“Embrace everything! Make the most of the time that you’re here - I’ve been here two and a half years and it’s gone by so fast. I think it’s because I’ve done so much and I’ve enjoyed so much.”*

**– Ricky**

*“Go with an open mind and enjoy every second because it goes so quickly.”*

**– Emma**

*“Try to be confident and meet as many people as you can!”*

**– Holly**

*“Everyone’s really friendly, so get involved with as much as you can. If you do things like the Employability and Volunteering awards it looks good when you go and get a job. Get involved and go for it.”*

**– Charlotte**

*“Make the most of all the academic support options available to you so you can achieve your full potential.”*

**– Sophie**

*"You get what you put in. If you want the most out of uni then you need to put the effort in - nobody else can do that for you."*

**– Shannah**

*"It's different to anything you'll have done before and it's the start of a big chapter in your life. But approach it wholeheartedly and dive straight in!"*

**– Callum**

*"Embrace your time, don't be scared to ask for help, make friends, join in with societies and take time for yourself. All of this will help you through and help you enjoy uni."*

**– Rhianna**

*“Take the opportunity to get involved with volunteering projects as it ensures you meet new people and builds your CV.”*

– **Liv**

*“Don’t over-pack! 100%. I brought way too much last year that I didn’t really need.”*

– **Sophie**

*“Try different societies and events in Fresher’s Week. You’ll meet loads of new people and it’ll help keep any homesickness at bay!”*

– **Ella**
